To whom it may concern

We have been cooperating with *Bireta Professional Translations* since its establishment in 2002. *Bireta* translates for us specialist technical documents, such as energy audits, Feasibility Studies, technical and economic analyses, which because of their specificity require very thorough knowledge of power industry terminology.

We appreciate professionalism, good work organization and high quality of the services provided.

Bireta carries out its tasks in such a manner that it earns its reputation of a reliable partner.
